It's always nice to feel that at end of a week of labor, it was successful and one rejoices. This is how that first missionary experience of Christ's disciples ended and the celebrations began.

We too should be able to celebrate our Faith successes as they did.

Parish Reflection: The decision by the government to allow contraceptive pills to teenage girls undermines parents authority, contributes to sexually transmitted diseases, endangering their health. Secular women's organizations are pressuring political ideologies and now it has come to this winning political votes is more important than safety of our children. How any of this can be considered a health issue is contradictory as Plan B does nothing to prevent sexually transmitted diseases. What it will do is pressure young girls to be sexually active and misguided. The decision this administration has taken should be troubling for us all.
