Mark 6 : 1 - 6

The Catholic Church has always stood by that Joseph and Mary had only one child Jesus. Protestants do not agree with us fifteen centuries later. Tribal communities were close and intimate, so much so they saw each other as brothers and sisters. They were not as interested as we are in defining relationship distinctions as 1<sup>st</sup> cousins, 2<sup>nd</sup> cousins, in-laws, uncle, aunts, etc. The tribe defined us as we are all brothers and sisters as members of the tribe. Catholicism doesn't always see scripture to be taken literally.

Parish Summer Picnic

### From the Pew

The National Pilgrim Virgin Statue of the USA visiting various parishes in our Archdiocese this month. A lovely hand-carved image of Our Lady of Fatima, given to USA by the Bishop of Fatima in 1967, blessed by Pope Paul VI, and crowned by Cardinal O'Boyle in the National Basilica in Washington, DC in 1971. The Statue travels around America under the sponsorship of the World Apostolate of Fatima, spreading the important message of Fatima. The Statue will be visiting St. Mary's Nicasio on **Thursday, July 23<sup>rd</sup>**. Parish is forming a committee in the work to schedule the day event. If you are interested in the planning, let Fr. O' know.

Thanks **Mike Stephens** for organizing the parish picnic last Sunday. Good times enjoyed by all.

Thanks **Ginny & George** for organizing the Marin Priests Dinner last Saturday. Our guests from St. Hilary, St. Patrick, St. Sebastian, and retired priests. Fr. Gilson was here 70 years ago; and Fr. Brown remembers Fr. Glogowski & his little pet pig 27 years ago.

[Part 1 of 4] **Pope Francis Encyclical on the Environment** is a Papal Letter addressed to world Catholics containing authoritative teaching intended to influence the political process. Pope Francis is making the church a key player on the issue, carbon emission reductions. The Church stands by the IPCC that earth's climate has warmed due to greenhouse gas concentrations to levels unprecedented in the last 800,000 years. If such trends continue, the destruction of the ecosystem will have tragic consequences for future generations.
