Mark 7 : 31 - 37

Because the deaf man cannot hear, his speech would also be affected because he cannot hear sounds. We learn to speak listening to sounds. It always amazes me how young children learn two languages by four years. Mother Latino, father American, and they not once attended a class of languages. Now this man can become fully a part of this world by his speech and hearing restored.

Junipero Serra (Part 6 of 15) Junipero Serra

believed there is no difference between morality and wisdom. Wisdom is morality. Two students of Junipero Serra will follow him for the rest of their lives as Franciscans. Those times, violence was punished by violence. Example, a priest was murdered by a Moor. He was baptized then hanged. His head was placed at the front gate of the town as a warning to all. 1748, Junipero Serra began to contemplate missionary work than being a professor. New Spain he looked to Mexico and today California. His request was denied.

What college? Many parents feel that only university education will help young people succeed. The first question should be, "Do you want to go to college?" There are many well-paying jobs in the building trades, auto technicians, manufacturing industries. These are all opportunities well worth exploring.
