Thomas Aquinas Summa Theologiae 1266

Written 750 years ago. Outside of the Gospels, the most important book written in Catholicism. 510 topics. 1.5 million words. 2,565 pages. Aquinas born near Rome 1225, a Dominican friar considered dim witted by his friars because of his silent nature, but his scholarly works on philosophy, scripture and theology are still read throughout the world today. He was canonized by Pope John XXII 1323 and his works immediately recognized making him a doctor of the Church. A simpler version of his writings, "Thomas Aquinas's Summa theologiae, A Biography", by Bernard McGinn (Princeton University Press, \$24.95).

Signs of our American Culture

Savana Senecal looked to Vermont University with State funded finances as her university to attend. She found out because she went to a Catholic high school and she was not eligible for financial aid. That's discrimination in my book. And even worse, private schools pay their share of taxes that support public schools. We are seeing more and more of this from secular leaders.

Did you know The Royal wedding of Harry & Meghan costs 43 million pounds.

158,000 people attend the Kentucky Derby.
