**Pope Francis** Only a Church that renounces power, money, triumphalism and the world's lures is free to be Church.

Pope Francis has made Mary the Mother of the Church a liturgical feast day in the liturgical calendar year, the Monday after Pentecost Sunday. Mary was first called Mother of the Church in 1964 by Pope Paul VI. The prayers we bring to her she intercedes for us therefore can be called the Mother of the Church.

**Birth Rate, U.S.** The U.S. fertility rate hit a low record 2017. 62 births per 1000 women of child bearing age. The fears are one day there may not be enough taxpayers' money to keep social security afloat.

Median age at birth of first child, 26. Cost of raising one child to 17 years, \$233,600. Unmarried mothers, 38%. State with least births, California. If not for immigrants, the birth rates would be greatly lower. Women giving births between 40 to 44 years old. Central U.S. has the most births in the U.S.
