Civilization requires energy, but energy must not destroy civilization.

10 Vatican Documents Growing in one's Faith is a lifelong process. The teachings of the church is a part of this process. Catholics rarely read the Magisterium documents of the Church. Here is ten to consider as Catholic reading (Google the documents.)

Lumen Gentium: 2nd Vatican Council. The principle aim of Lumen Gentium is to define the Church and the hierarchical relationship of its members, the role of the pope down to the role of laity. All bringing the Gospel into the secular world. Lumen Gentium means "Light for the Nations". As Christ is the light of the world so too is the Church to be the light to all nations.

Mark 6 : 1 - 6

The rejection of Jesus by his own village is a common experience of humanity. I remember even at the age of six when an Irish man or woman returns to their village and shows how successful they are as compared to those who remained in Ireland. That was a no no at the highest level of human behaviour. Bragging oneself against others is disapproved off and despicable.
